

# Series A 22 Dust Collector

Dust collector filter

Detachable container

## *Industrial vacuum cleaner for dust, solid and liquid material*

### **POWERFUL & LIGHT**

Powerful and light, sturdy and silent, outstanding in filtration: the Trelawny A 22 is the ultimate compact industrial vacuum, presenting what is by far the highest filtration capacity in its category: this fully steel built machine is suitable for an extended range of applications, including suction of fine and toxic/hazardous dust, solid material such as chips and shavings and small quantities of liquids.

The number of options available (HEPA filtration, stainless steel, ATEX explosion proof, use of disposable collection bags) and a wide choice of accessories render the Trelawny A 22 appealing to a high number of different industries and applications.

### **COMFORT & SAFETY**

The Trelawny A 22 enables the operator to work in full comfort, by eliminating the frequent interruptions to check and clean the vacuum filter, thus speeding up the operation.

The safe removal of dust into disposable bags, low noise level, ease of transport (it fits in the back of a car!), outstanding filtration capacity and rugged construction make it the ideal working companion in an extremely large range of applications.

## TECHNICAL DATA

Model	A 22
Voltage (110Volt / 50-60Hz)	303.4100
Voltage (220Volt / 50-60Hz)	303.4105
Power (Watt)	2300
Motors (n.)	2
Max. vacuum Rate (mm.H <sub>2</sub> O)	2500
Max. air flow rate (M <sup>3</sup> per h)	360
Filter (type)	cartridge
Filter surface (cm <sup>2</sup> )	30.000
Airload on filter(M <sup>3</sup> /M <sup>2</sup> /h)	120
Filter efficiency (CAT B/A per micron)	M / H
Noise level ( Db(A) )	74
Capacity (Lt)	20
Suction inlet (Ømm)	50
Dimensions (cm)	48 x 52
Height (cm)	100
Weight (kg)	31
Option absolute filter (Efficiency 99,995% particle size 0,18 µ m standard EN 1822)	Yes

## MODEL KIT includes

### Item description

AR 4684	Paper bag
AA2642	D.40 chromed bend
SV2511210	D.38 black flexible hose (2.5mt)
AA1362	50/40 flex connection (left thread)
AA1027	D.40 pvc connection for accessories
AA2644	D.40 mm 400 dust brush
AA2647	D.40 pvc brush
AA2665	D.40 rubber cone section with connection

## APPLICATION

The Trelawny A 22 appeals to a wide range of users including:

- Surface preparation
- Laboratories & workshops
- Bakeries & food production
- Building & cleaning contractors
- Wood & pharmaceutical industries

The vacuum is also designed for eliminating dust when used with electrical power tools such as grinders, saws, sharpeners and surface preparation equipment. It extracts the dust at source before it can disperse into the air.

The detachable collection container enables quick, easy & clean disposal of all collected material.
